

Mountain Paradise

Sanctuary

Pictured in *Southern Living* magazine (Nov 2003)

Breathtaking, panoramic views of lush valleys and mountains from every room in the house. Relax in this spacious Great Room complete with a stone, wood-burning fireplace and enjoy the majestic mountains through floor to ceiling glass.

Watch a movie on the large-screen television with a home-theater system complete with built-in surround sound. As evening approaches, enjoy a romantic dinner for two or host the entire family in this beautiful and unique glass dining room.

At Sanctuary we've remembered the small, special touches (picnic baskets, antique pieces, robes waiting for you in the bedrooms, etc.).
